**SUBJECT: REQUALIFICATION PROGRAM INSPECTION - BRUNSWICK STEAM
ELECTRIC PLANT**

Dear Mr. Gannon:

During a conversation on November 2, 2004, Mr. Edwin Lea, NRC Senior Operations Engineer, and Mr. Tony Pearson, Brunswick Supervisor of Operations Requalification Training, made arrangements for the NRC to inspect the licensed operator requalification program at the Brunswick Steam Electric Plant. The inspection is planned for the week of November 29, 2004, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In order to adequately conduct this inspection, the NRC has asked that your staff provide documentation associated with the implementation of your requalification program as described in 10 CFR 55.59(c). The documentation will be reviewed the week of the inspection. Mr. Pearson has been informed of the documentation request.
